

Adhen Benlahlou

INFORMATIONS GÉNÉRALES

I am an applied microeconomist with a strong interest in structural econometrics, particularly in the context of the economics of science and innovation. My research combines microeconomic models with econometric analysis to explore how networks influence the productivity of knowledge producers, such as inventors and academic researchers.

TITRES UNIVERSITAIRES

- October 2017–July 2022 **Phd in Economics**, *GATE*, Saint-Etienne, France
Peer effects in knowledge production.
Advisors: Corinne Autant-Bernard, Pascal Billand
Jury: Francesco Lissoni (Bordeaux School of Economics), Agnieszka Rusinowska (Centre d'économie de la Sorbonne), James P. Lesage (U. Toledo), Sudipta Sarangi (Virginia Tech)
- 2017 **Master Economics and Finance (Public Policies Analysis)**, *Université Jean Monnet*, Saint-Etienne, Master thesis: "Proximity Paradox and radical innovation, a puzzling link" (Advisors: Corinne Autant-Bernard, Pascal Billand), Saint-Etienne, France
- 2015 **BA in Economics**, *UJM*, Saint-Etienne, France

CARRIÈRE SCIENTIFIQUE

- October 2022– **Post-Doctoral researcher**, *Institut of Mathematical Economics (IMW)*, Bielefeld University, Allemagne
- September 2021–August 2022 **Temporary Teaching and Research Associate**, *GATE Groupe d'Analyse et de Théorie Économique Lyon St-Étienne (UMR 5824)*, Université Jean Monnet, IAE de Saint-Étienne, France
- October 2017–July 2022 **Phd Student**, *GATE Groupe d'Analyse et de Théorie Économique Lyon St-Étienne (UMR 5824)*, Université Jean Monnet Saint-Étienne, France

CARRIÈRE D'ENSEIGNEMENT

Enseignement Universitaire

- **Economics of Networks** (Lectures), Master & PhD, University of Bielefeld Topics: Network formation, games on networks, network econometrics 36h (2023–2025)
- **Empirical Industrial Organization** (Lectures), Master, University of Bielefeld Topics: Structural econometrics, demand estimation, Markovian decision process, matching games, auctions 36h (2024–2025)
- **Economics of Networks** (Lectures), Master in Political Engineering, IAE Saint-Étienne Topics: Network games, peer effects, network econometrics 18h (2021–2024)
- **Economics of Innovation** (Lectures), Engineering Program, Télécom Saint-Étienne Topics: Funding of innovation, IP rights, market structure, innovation incentives 36h
- **Introduction to Microeconomics** (Lectures & Tutorials), LASS Economics & Management, IAE Saint-Étienne 36h
- **Introduction to Microeconomics** (Lectures), Engineering Program, Télécom Saint-Étienne 18h

- **Microeconomics II** (Teaching Assistant), L2 Economics & Management, IAE Saint-Étienne 18h
- **Microeconomics I** (Teaching Assistant), L1 Economics & Management, IAE Saint-Étienne 36h
- **International Finance** (Teaching Assistant), L3 Economics & Management, IAE Saint-Étienne 18h
- **International Economics** (Teaching Assistant), L3 Economics & Management, IAE Saint-Étienne 18h

PUBLICATIONS ET ACTIVITÉS SCIENTIFIQUES

Liste des publications

Articles dans des revues scientifiques internationales

Balzer, M. and Benlahlou, A., *Mitigating Consequences of Prestige in Citations of Publications*, *Scientometrics* (2025): 1-28.

Benlahlou, A., 2019., *Team production game on bipartite networks*. *Economics Letters*, 180, pp.94-98.

Working Papers

Benlahlou, A., *On the origin of scientific peer effects, strategic complementarity or conformity?*, Submitted

Benlahlou, A., *Peer effects in Cancer research.*, Submitted to Management Science,

Benlahlou, A., *Peer Effects Among Inventors: Unpacking Their Origins in Cancer-Related Innovation.*, Submitted to Management Science

Balzer, M. and Benlahlou, A., *Gradient Boosting for Spatial Panel Models with Random and Fixed Effects*

Balzer, M. and Benlahlou, A., *Strategic Interactions in Science and Technology Networks: Substitutes or Complements?*, Job Market Paper

Selected work in progress

Benlahlou, A. and Foerster, M., *Risk Taking in Academia: Inferring Researchers' Attitudes from Publication Data*

Benlahlou, A., *Uncertainty and the Making of Star Scientists: Evidence from the early exposure to uncertainty*

Balzer, M. and Benlahlou, A., *Funding Cancer Research Networks: A Question of Prestige or Scientific Impact?*

Balzer, M. and Benlahlou, A., *Variable Selection in Spatial Autoregressive Networks with Endogenous Links: A Bayesian Approach.*

Benlahlou, A. and Ferrières, S., *Stability in team production game on bipartite networks.*

Benlahlou, A. and Ferrières, S., *Efficient network in team production game on bipartite networks.*

Activités scientifiques

Participations actives à des congrès et colloques internationaux 2026 ADRES, Job Market Conference

2025 ADRES, Job Market Conference, Université de Strasbourg, 2025

2022 6th Geography of Innovation Conference, July 4-6, Milan, Italy

2022 XVI World Conference of Spatial Econometrics Association, June 23-24, Warsaw, Poland

2021 NSF Network Science in Economics Conference, March 26-28, Chicago (Online) USA

2020 35th congress of the European Economic Association, August 24th-28th, Rotterdam (Online), Netherlands.

- 2019 59th ERSa Congress, 27th – 30th August, Lyon, France
- 2019 International Conference on Public Economic Theory, 8th-11th, University of Strasbourg, France
- 2022 20th International Workshop in Spatial Econometrics and Statistics, 19-20 May, Lille, France
- 2021 Impact Workshop, 7 September, Grenoble, France
- 2019 6th Economics of Science and Innovation workshop, 10th – 11th June, Barcelona, Spain

Missions d'expert ou de consultant

Refereeing Journal of Economic Behavior & Organization, Scientometrics

Grant University Grenoble Alpes, starting grant.

Evaluation

RESPONSABILITÉS LOGISTIQUES

Dans le cadre de l'enseignement et de la recherche

- 2019 INDEPTH workshop co-organiser, 28th-29th March, Saint-Etienne, France

AUTRES INFORMATIONS UTILES

Skills

Technical **R** Text Mining

Skills **Python** Data Mining

MySQL Network Analysis

NodeJs Patents and Scientific publication

Unsupervised Learning

Applied Econometrics Bayesian Econometrics

French Fluent (Mother Tongue)

English Fluent

Honors, Scholarships, Fellowships, and Grants

- Université de Lyon, école doctorale ED486 Fully funded Phd.(2017-2021)
- Cem Ertur Prize, 20th workshop in spatial econometrics, Lille, France (500 euros)
